CONCEPT WATCH.....

The stunning V10K is the quintessence of Rado's original vision. Its high-tech diamond surface achieves a hardness of 10,000 Vickers, equaled only by natural diamonds. A milestone in the history of the brand and of worldwide watchmaking, today the hardest watch in the world is at the centre of continuing technical and aesthetic evolution. www.rado.com.....

FLAGSHIP.....

April sees the much-anticipated opening of the new Church's flagship store in Geneva. In the new space, designed by architect Roberto Baciocchi, Church's followers will find the traditional men's and women's footwear lines alongside the branded leather goods and accessories Church's is so famously known for. www.church-footwear.com.....

IN THE BAG.....

It all started when sister-act Katka and Zuzka Griesbach cut out the leather from an old sofa to make handbags and small leather goods. The idea then became a business and the duo now works with more exclusive materials, manufacturing in Switzerland and Italy, creating accessories with nifty names such as *Big Elena* or *Mila* in colours in equally interesting shades from panna to brandy. www.griesbachweb.com.....

COSANOVA.....

After only two years working with London-based design *supremo* Ross Lovegrove, the young Claudio D'Amore founded his own design agency Cosanova. Expert in providing creative solutions for the watch industry and also to high-end sectors such as furniture and product design, the studio's ideas have been prized by many international accolades. One of their much-coveted objects is *La Vache Qui Luit* (the glowing cow), a lighting fixture made of a folded metal sheet with cut outs inspired by the lines of an original Origami cow. www.cosanova.ch

BE OUT.....

Number one urban pavilion gets a master makeover courtesy of interior guru Pierre-Yves Rochon. The gateway to the perfectly landscaped gardens of the elegant Baur au Lac Hotel – *La Terrasse* – and the *Le Pavillon*, finally reopen this spring with stunning new interiors

and a loungy décor, hosting a garden restaurant that will welcome its well-heeled guests just in time to catch the first rays of summer sun and aptly setting the scene for the city's A-listers and BAL regulars. www.bauraulac.ch
